

**APPENDIX**

**VERSION WITH MARKINGS TO SHOW CHANGES MADE**

**IN THE CLAIMS:**

**The claims are amended as follows:**

1. (Twice Amended) A method of downloading re-programming data from a network for installation in a radio transmitter/receiver comprising:

receiving initial communication from a first dedicated channel; and

broadcasting at least the frequency and radio access parameters of a second channel from which ~~reprogramming~~ re-programming data ~~may be~~ is downloaded,

wherein a bandwidth of the first dedicated channel ~~being~~ is narrower than the bandwidth of the second channel.

4. (Twice Amended) A method of downloading re-programming data from a network as in claim 1, ~~wherein the first dedicated channel broadcasts~~ further comprising broadcasting a list of sets of parameters corresponding to networks available in the region on the first dedicated channel.

5. (Twice Amended) A method of downloading re-programming data from a network as in claim 2, ~~wherein the first dedicated channel broadcasts~~ further comprising broadcasting a list of

sets of parameters corresponding to networks available in the region on the first dedicated channel.

6. (Twice Amended) A method of downloading re-programming data from a network as in claim 3, ~~wherein the first dedicated channel broadcasts~~ further comprising broadcasting a list of sets of parameters corresponding to networks available in the region on the first dedicated channel.

11. (Amended) A method according to claim 7, ~~wherein the first dedicated channel broadcasts~~ further comprising broadcasting a list of sets of parameters corresponding to networks available in the region on the first dedicated channel.

12. (Amended) A method according to claim 8, ~~wherein the first dedicated channel broadcasts~~ further comprising broadcasting a list of sets of parameters corresponding to networks available in the region on the first dedicated channel.

13. (Amended) A method according to claim 9, ~~wherein the first dedicated channel broadcasts~~ further comprising broadcasting a list of sets of parameters corresponding to networks available in the region on the first dedicated channel.

**Claim 14 is added as a new claim.**
